

vandemoortele

Vandemoortele is a leading European food group that manufactures and sells high-quality food products through two business lines: Bakery Products and Lipids.

Today, Vandemoortele employs a highly skilled workforce of 5.000 people across 12 European countries and realises a turnover of more than 1,1 billion Euro.

Vandemoortele develops, produces and distributes frozen bakery products and margarines & fats. These are delivered as ingredients and semi-finished products to professional users and as finished products to consumers. Our consumer products are sold primarily under private labels by retailers, although we also market them under our own brands.

At Vandemoortele, we believe that **our customers are part of us**. This requires an open and innovative dialogue with our customers in order to supply products at a **quality, service and innovation** level that creates value for everyone. Our work is strongly based on close **cooperative relationships** with our customers as well as a profound understanding and active analysis of the most important **consumer and food trends**.

In operating our business, we **respect society and the environment**. We also believe that the development of Vandemoortele should go hand in hand with the **personal development of our employees**.

The values that inspire Vandemoortele from day to day are entrepreneurship and ambition, ownership and accountability, integrity and trust.

Lipids

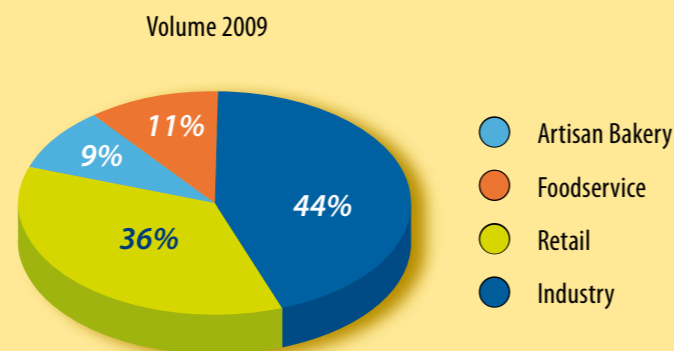

Vandemoortele has a well-known reputation for supplying top-quality, innovative margarines and fats for various market segments. We target both the professional user (artisan bakery, foodservice, industry) and the retail sector with a broad portfolio of products that combine processability, taste and texture, and high nutritional standards. Our expertise in margarine and fat technology is dedicated to the requirements of our customers.

For professional users, Vandemoortele offers the widest choice of standard and custom-made margarines (cake, cream, pastry margarine...) and fats (shortenings, frying fats...). Our well-equipped R&D lab, with a bakery and a margarine pilot plant, also offers our customers the possibility of intensive application testing before their production process is finalised.

For the retail sector, Vandemoortele has a wide range of consumer products for everyday use. We produce a whole array of tailor-made products under retailers' own brands based on the latest market and consumer trends and we also distribute a number of strong margarine, oil and dressing brands.

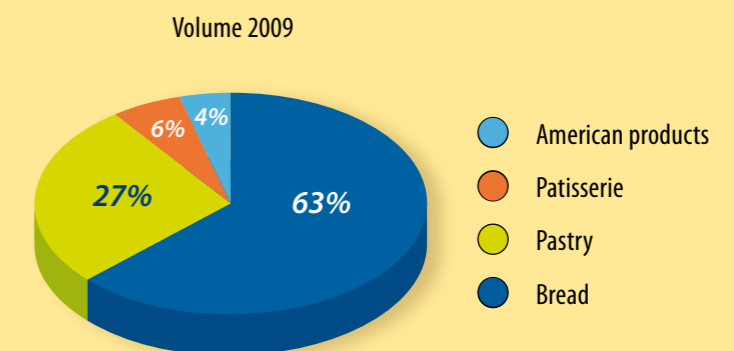

Bakery Products

Vandemoortele is one of the leading European producers of frozen bakery products, with a wide range of bread, pastry, donuts, muffins, cookies and patisserie. Our company focuses on the professional user, ranging from retailers to foodservice clients and artisan bakers.

Our products are presented under our own famous brands (Banquet d'Or, the Originals, Panavi, Croustifrance, Les Pains Pères de Roland Cottés, ...) but we also produce tailor-made recipes for our customers. With our state-of-the-art R&D centre, we continuously invest in new technologies that enhance the quality and convenience of our products (ready to prove, ready to bake or ready to serve) and enable us to develop the best solution for our customers. New products are developed on the basis of new market trends and our customers' needs.

Vandemoortele is committed to being the best-in-class in its sector. Key factors of our success are:

- our close partnership with our customers
- our long-term vision and belief in the future
- our extensive sales and distribution network
- our European leadership driven by efficiency
- our innovative spirit and continuous product development
- our high quality standards (HACCP, ISO, BRC, IFS compliant)
